

Transform Safety Performance with AI-Powered Insights

Most organizations collect risk data, but few know how to use it effectively to prevent serious harm. Disconnected systems, outdated indicators, and limited cultural insights often leave leaders reacting after incidents occur. **dss+360 changes that.**

What is dss+360?

dss+360 is a digital platform that unifies your operational, risk, and cultural data to deliver actionable insights, helping you prevent incidents, reduce risk, and drive sustainable performance. Built on 50 years of prevention expertise and the world's largest safety-culture dataset, dss+360 turns complex data into clear, prioritized actions for every level of your organization.

Key Value Proposition

- AI trained on 50 years of prevention expertise
- World's largest safety-culture dataset
- Proven consulting methodologies
- Actionable insights for every level of your organization

***Work better.
Work faster.
Work smarter.***

Key Benefits

Make faster, smarter decisions with real-time insights

Prevent incidents and save lives

Overcome cultural barriers to safety

Equip every level of your organization with clear, prioritized steps

Protect. Transform. Sustain.

How dss+360 Works: From Data to Decisions

1. Connect & Curate: Consolidate operational, cultural, and external data, curated with AI and dss+ prevention logic.

2. Assess Risk & Culture: Analyze survey, risk, and incident data to reveal maturity and exposure hotspots.

3. Surface Critical Insights: Dashboards highlight leading and lagging indicators and future risks.

4. Decide & Act: Prioritize the few critical actions that will help prevent incidents, assign ownership, and track progress over time.

dss+

Protect. Transform. Sustain.

Why choose dss+360?

dss+360 is more than a data platform – it's a catalyst for transformation. With dss+360, you move beyond simply collecting and reporting data. You gain the ability to benchmark your safety culture, proactively detect failed controls before incidents occur, and drive sustainable, measurable performance improvements.

What sets dss+360 apart:

- Predictive, AI-driven insights that help you anticipate and prevent risks, empowering leaders to act before issues escalate.
- Actionable intelligence that translates complex data into clear, prioritized steps for every level of your organization.
- Continuous learning and improvement, leveraging the world's largest safety-culture dataset and decades of prevention expertise.
- A focus on resilience and people, equipping your teams to create a safer, stronger future.

With dss+360, you're not just improving safety. You're building a culture of prevention, resilience, and operational excellence that protects your people and your business.
